## NOTES

| <u>id</u> | <u>Note</u>  |
|-----------|--|
| 2         | HullRaiser and HighRoller require one set of MightyMount 39H (PN 8003539) to be compatible with Yakima CoreBar and JetStream bars.   |
| 5         | HullyRollers, MultiMount, and Mako Saddles require one set of MightyMount 39H (PN 8003539) per pair to be compatible with Yakima CoreBar and JetStream bars.   |
| 14        | Using Yakima RoundBars with Yakima BaseLine, TimberLine, SkyLine or RidgeLine towers will require the purchase of RoundBar SL Adapter (PN 8003536) sold separately.  |
| 54        | Caution! when open, sunroof or panoramic roof may interfere with some accessories.   |
| 69        | Visit <a href="https://yakweb-assets.s3.amazonaws.com/HatchClearance.pdf">https://yakweb-assets.s3.amazonaws.com/HatchClearance.pdf</a> for rear hatch clearance information regarding cargo boxes.  |
| 81        | All loads extending beyond the length of the roof (except cargo boxes) must be secured to both the front and rear of the vehicle, in addition to the rack.   |
| 82        | SideWinder (Tandem Bike Mount) is compatible with Yakima RoundBar only.  |
| 98        | ShowDown requires crossbars one size larger than the recommended minimum for adequate vehicle side clearance on this application.  |
| 103       | Please check your vehicle's front bar to hatch measurement as well as the ShowBoat 66" instructions, found here <a href="http://assets.yakima.com/Product/instructions/8004068/1">http://assets.yakima.com/Product/instructions/8004068/1</a> , to ensure compatibility with your target boat weight, roller extension, and vehicle. |
| 104       | If crossbar spread is between 24" and 29", length of canoe must be 14 feet or less.  |
| 109       | Always be sure to tie down your SUP as per instructions. SupPup and SupDawg require using nose tie down strap.   |
| 110       | If your vehicle is equipped with a sunroof or panoramic glass roof, prior to operation, ensure adequate clearance exists with roof rack and/or accessories installed.  |
| 132       | Any load/mount extending beyond the rear hatch seam may cause interference.  |
| 191       | Limited to 2 surf/sail/paddleboards. Boards must be stacked - NEVER carry side-by-side.  |
| 604       | RoadShower SM and MD can accommodate crossbar spreads of 24" - 50". The distance from the front or rear clamp to the end of the shower must not be greater than 30". Do not mount RoadShower outboard of tower.  |
| 607       | RoadShower LG can accommodate crossbar spreads of 32" - 78". The distance from the front or rear clamp to the end of the shower must not be greater than 30". Do not mount RoadShower outboard of tower.   |

## TECHNICAL NOTES

Pano roof weight limit is 100lbs.
